

MICROSOFT CERTIFIED APPLICATION SPECIALIST (MCAS)

Prerequisites: Candidates should have the equivalent of six months to one year of hands-on experience creating business deliverables with each Microsoft Office 2007 application and might have experience with previous versions of Microsoft Office Word.**

Summary: The Microsoft Certified Application Specialist (MCAS) credential validates skills in using the 2007 Microsoft Office system and the Windows Vista operating system, meeting the demand for the most up-to-date skills on the latest Microsoft technologies. Candidates who successfully complete the program by passing a certification exam show that they can meet globally recognized performance standards.

Course Content
